

## EFQM Excellence Model recognition scheme award winners

The following table shows the winners of both the European excellence award - the EFQM Award - and the UK Excellence Award, since the first recognition scheme based on the EFQM Excellence Model was launched in 1992. The diagram below shows the model "criteria" in all nine of which organisations applying for the awards must provide evidence of excellence.

ley hill solutions people have been involved in the awards process almost from the beginning and have often acted as lead assessors for successful organisations – these are shown in green in the tables below.

## Winners from 1992 to present day (most recent first)
